LAPPING COMPOUND

Since 1956

Features, Advantages, and Benefits:

Reel Diamond (labeled Turf Pride) is a patented product (#5603739) that is an environmentally safe abrasive compound. Electronic-grade water is pH neutral and washes off with water.

Formulated with precisely enough viscosity and tackiness additives to permanently suspend the abrasive and keep the product on the blades, not on the floor or the technician. The industrial diamond compound will always provide a faster cutting action and produce a much sharper cutting edge.

Lubricant will dissipate the heat on the blade minimizing warp plus there are rust inhibitors to minimize corrosion.

The Packaging:

A lot number on each pail allows complete traceability throughout the manufacturing process and quality control. The SCIN number on each pail tracks the abrasive within the formulation.

On each pail lid there is a unique locking feature for easy use. Each pail lid features an O-ring top seal for product freshness, and cleanliness between uses. The compound is available in one pound jars, 11 and 25 pound pails and uses colored lids to distinguish the different grit sizes.

How to Order:

Lapping compound can be ordered in 11 or 25 pound pails, single pail or by the pallet (36 pails). Lapping compound is available in 80, 120, or 180 grit. One pound jars can be ordered as a sample (25 jar minimum) to give to potential customers and is available in 120 grit only. Shipping costs are not included.

Description	Price per pail
1 lb. jar/ 120 grit	\$12.35
11 lb. pail/ 80 grit	\$31.61
11 lb. pail/ 120 grit	\$31.61
11 lb. pail/ 180 grit	\$31.61
25 lb. pail/ 80 grit	\$65.41
25 lb. pail/ 120 grit	\$65.41
25 lb. pail/ 180 grit	\$65.41
